

Open Access Music Studio

Recording | Mixing | Production

Weekdays 08:00 - 22:30
Sat - Sun 09:00 - 21:00

The Studio

The new privately owned and professionally designed, commercial studio opened in October 2020.

The studio is soundproof. Internally acoustic treatment provides a good sound for singing and instruments.

High-end analogue console, microphones and outboard combined with Logic Pro X provide the best of both sound worlds in recording and mixing.

Meet the Owner

All sessions are run by the owner Barnaby who has run his studio for the last 10 years but is also a gigging bassist. His experience from both sides of the microphone will help in realising your aims and dreams.

Your Vision

The studio can accommodate solo artists, duos, and groups including full bands with acoustic drums.

The mix is created, discussed, refined and mastered in any required digital format as needed for streaming, CD, or other desired destination.

Prices

Recording
£30/hr

Mixing
c. £80/song

Your first mix
50% OFF
